

ARRIVAL Instructions (Please arrive 15-20 Minutes before your allocated Time)

- On arrival please follow signs to the sign on area
- Our admin team will help you complete our sign-on process and ensure your paperwork is correct prior to driving
- At your session start time you will be directed to our Drivers Briefing (Drivers under 18 will require a parent or guardian present).
- Driving sessions will normally commence approximately 30 minutes after your session start time and we hope to complete your drives as soon as possible.
- Don't forget to dress appropriately for where your venue is and the weather and to wear comfortable footwear (Leave the workboots and high heels at home on the day)

Please be aware that if you are driving multiple vehicles (e.g. 3+ vehicles) your experience may take a few hours to complete but we will obviously try to expediate your booking at each point possible.

WHAT TO BRING WITH YOU ON THE DAY:

1. Your voucher and booking confirmation (as we may need to verify your booking, and this will not be possible without these)

Please Note... We make every effort to ensure your chosen vehicle will be available on the day. Whilst all our vehicles are maintained to a very high standard unfortunately mechanical objects can fail without notice; in this instance we will endeavour to offer you a suitable alternative. Some vehicles can be upgraded on the day but we do advise pre-booking as many options such as sighting laps, collision damage waivers and also car upgrades online prior to arrival to help minimise any potential disappointment on the day. Why not take advantage of additional driver discounts or double the distance in the cars?

Please like PSR Experience on Facebook which we also keep up to date with our event news (And offers)
